3:00 pm	Wiki 101 / MyAgGateway 101 Your contributions to the AgGateway mission will be easier and less stressful when you understand how we use the two key tools of collaboration: the AgGateway Wiki and MyAgGateway. The Wiki houses all of the key organizational resources, and in the first half of this session you will learn how to find what you are looking for. This will include learning how to create meeting agendas, add meeting minutes, copy pages, view page history, import documents, link to documents, add dynamic content, and more. The second half of this session will focus on AgGateway's member management system, MyAgGateway. Topics covered	We will review the API model created by the working group and discuss implementation plans. The group will focus on identifying where each piece of data contained within the API definition will come from as it relates to the proposed wheat harvest pilot in late June/July to help create implementation guidelines and gap check the deliverables from the Working Group.
